FINNVERA

Finnvera in Brief

FINNVERA

Finnvera's role

- **Finnvera supports exports and SMEs by providing loans and guarantees at various business stages.**
- **Task is to supplement the financial services provided by the private sector.**
- Finnvera serves Finnish micro, small, and medium-sized enterprises (SMEs) operating domestically or expanding internationally.
- Our clients also include large Finnish corporations engaged in the export trade, their foreign customers, and domestic and foreign banks providing financing for exports.
- **Finnvera is:**
  - The official Export Credit Agency (ECA) of Finland
  - The State-backed financier of Finland's SME sector.

Finnvera Group in Brief

- Specialised financing company owned 100% by the Republic of Finland.
- Debt obligations explicitly guaranteed by the Republic of Finland.
- Rating of debt obligations Aa1/P-1 by Moody's and AA/F1+ by Fitch.

KEY FIGURES, JUNE 2026

LENDING & GUARANTEE COMMITMENTS		BALANCE SHEET	RESULT H1
Domestic €2.1 billion	Exports €26.2 billion	€16.3 billion	€348.0 million

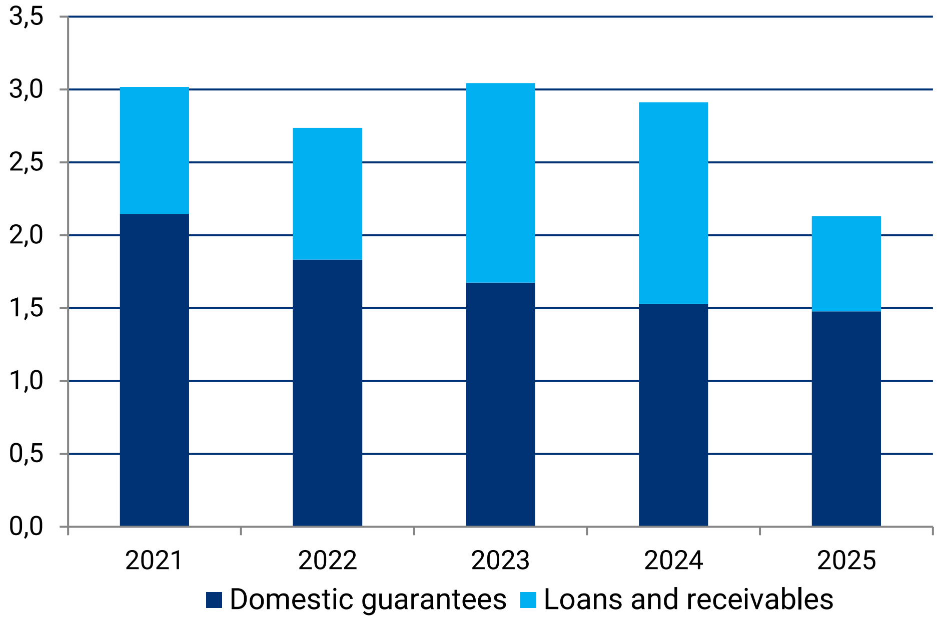
Business Review

FINNVERA

SME and Midcap Financing

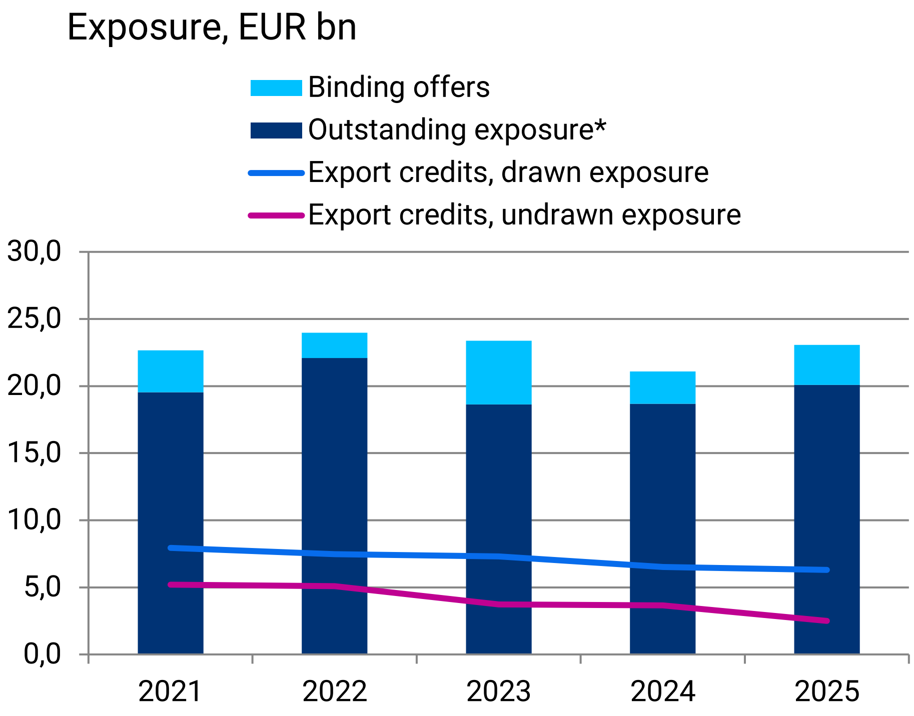
- Finnvera's mandate is to support the Finnish SME sector with focus on start-ups and growth companies.
- Annual credit and guarantee losses in SME and midcap financing range between 2–4% of total exposure.
- The state covers 40% of Finnvera's domestic losses, allowing for greater risk tolerance compared to commercial banks.
- Non-performing exposure EUR 150 million, 6.8% of the total exposure.

Exposure, EUR bn



Large Corporates

- For large corporates Finnvera provides export financing to ensure Finnish enterprises' competitiveness on the international export market.
- Finnvera's export credit guarantees provide Finnish exporters and financiers with cover for credit risks.
- Export credits provide long term financing to foreign buyers of Finnish capital goods.
- In 2025, Finnvera's export credit guarantees amounted to 9% of Finland's exports of goods.
- Realised losses in export credit guarantee and special guarantee operations have been minor (NPE: EUR 78 million).



FINNVERA

ESG

FINNVERA

Finnvera's Climate Strategy

Finnvera implements its climate change mitigation strategy in six areas: incentives, measurement, risk management, exclusion, engagement and competence.

CLIMATE CHANGE MITIGATION IN FINNVERA'S OPERATIONS, STRATEGY 2026-2029

Encouragement	Measurement and reporting	Risk management
We help our customers realise the opportunities created by climate change by financing growth, exports and investments.	We set goals for, measure and report on the climate impacts of our financing and other operations.	We incorporate climate risks in our key financing decisions and risk management.
COMPLETED ACTIONS/WHAT WE DO:	**COMPLETED ACTIONS/WHAT WE DO:**	**COMPLETED ACTIONS/WHAT WE DO:**
▪ We offer climate and digital loans to SMEs using the InvestEU guarantee programme. ▪ We enable loans for large industrial-scale climate and environmentally friendly investments with a loan product guaranteed by the InvestEU Fund. ▪ We have criteria for export projects in which we identify climate-friendly features and agree on incentives for climate-friendly projects.	▪ We calculate the carbon footprint of Finnvera's operations and the projects financed by us annually. ▪ We report according to the CRSD and NZECA frameworks for Finnvera's full operations and according to the Poseidon principles for our ship financing portfolio.	▪ We use the ESG traffic light model and report for assessing domestic financing projects, including CO_2 emissions. ▪ We assess climate risks as part of decision proposals for projects to be financed and the Internal Capital Adequacy Assessment Process (ICAAP). We have included ESG risks in our company analysis.
INTENT IN 2026-2029:	**INTENT IN 2026-2029:**	**INTENT IN 2026-2029:**
▪ We will develop the criteria and incentives further.	▪ We will report on climate issues in accordance with the EU CSRD framework. We will also develop and refine our calculation methods for the carbon handprint further. ▪ We will set a climate target for 2050 and create sector-specific CO_2/EUR targets and metrics to monitor our performance. We will address the requirements of the Net-Zero ECA commitment. We will prepare transition plans for each sector.	▪ We will develop climate risk assessments, especially at portfolio level, in accordance to regulation applicable to Finnvera. ▪ We will observe the requirements of the updated OECD Common Approaches recommendation for assessing the climate impact of projects.

Restrictions	Influencing	Competence
Our sectoral policies exclude the most harmful projects for the climate.	We influence the regulatory framework of export financing.	Sustainability is one of our strategic competences.
COMPLETED ACTIONS/WHAT WE DO:	**COMPLETED ACTIONS/WHAT WE DO:**	**COMPLETED ACTIONS/WHAT WE DO:**
▪ We have taken into use an exclusion policy for export credit guarantees in the oil and gas sectors from 1 January 2023, with strictly limited exceptions. Coal power and overseas peat projects were already excluded from Finnvera's financing earlier. We have internal guidelines for assessing compliance with the Paris Agreement.	▪ We exert influence and participate actively in OECD Arrangement discussions and in the E3F coalition, which strives for transparency in the financing of energy projects. ▪ We are part of the Net-Zero ECA alliance convened by the UN and the Berne Union Climate Working Group.	▪ FIBS membership enables us to provide responsibility training for the whole personnel.
INTENT IN 2026-2029:	**INTENT IN 2026-2029:**	**INTENT IN 2026-2029:**
▪ We will monitor the development of policies and practices in other countries closely and update our fossil fuels exclusion policy as necessary.	▪ We will participate actively in discussions aiming to create a level playing field and common rules for green transition financing.	▪ We will continuously provide training for and build up the personnel's competence on climate issues.

Finnvera’s Biodiversity Strategy

Along with climate change mitigation, biodiversity will become another priority area of Finnvera's sustainability from 2026 on.

MANAGEMENT OF BIODIVERSITY AND BIODIVERSITY LOSS IN FINNVERA’S OPERATIONS 2026-2029

Encouragement

We help our clients benefit from opportunities associated with biodiversity by financing growth, exports and investments.

COMPLETED ACTIONS/WHAT WE DO:

- We increased awareness of biodiversity and biodiversity loss management in our most significant export projects.

INTENT IN 2026-2029:

- We will encourage our clients to participate in projects that mitigate biodiversity loss and are more biodiversity friendly by financing growth, exports and investments, while addressing environmental impacts.
- We will increase awareness of biodiversity and biodiversity loss management in our cooperation with clients and stakeholders.

Measurement and reporting

We set goals for, measure and report on the biodiversity impacts of our financing and other activities.

COMPLETED ACTIONS/WHAT WE DO:

- We identified the impacts of financed projects through Bioscope biodiversity footprint calculation.
- We completed an initial update of the material biodiversity themes of Finnvera's operations (CSRD double materiality analysis).

INTENT IN 2026-2029:

- We will report on biodiversity in accordance with the EU CSRD framework.
- We will define (company-level) metrics for monitoring biodiversity impacts and identify nature dependencies better in our operations to support goal-setting.

Risk management

We incorporate biodiversity-related impacts, risks and opportunities in our key financing decisions and risk management.

COMPLETED ACTIONS/WHAT WE DO:

- We check if the target sites of export credit guarantee applications are located in areas with sensitive biodiversity or nature reserves.
- We assess and monitor site-specific biodiversity impacts in our large projects.

INTENT IN 2026-2029:

- We will observe the requirements of the OECD Common Approaches recommendation, whic will be updated, for assessing the biodiversity impacts of projects.
- We will give biodiversity risks and opportunities a clearer role in decision proposals concerning projects and continue to address biodiversity in project work.
- Regular reviews of biodiversity-related impacts, risks and opportunities are submitted to the company's senior management.

Strategy and operating models

Managing biodiversity and biodiversity loss is part of our responsible operation.

COMPLETED ACTIONS/WHAT WE DO:

- We updated the roadmap for the biodiversity strategy, setting of goals and monitoring of their achievement.
- Biodiversity and biodiversity loss impacts are addressed in our existing policies.

INTENT IN 2026-2029:

- We will set a goal for the protection of ecosystems and biodiversity and for biodiversity loss mitigation.
- We will continue to address biodiversity and biodiversity loss at operating policy level and as part of the company's responsibility strategy.

Influencing

We influence the regulatory framework of export financing.

COMPLETED ACTIONS/WHAT WE DO:

- We established a biodiversity working group together with export credit agencies that promote the management of biodiversity loss within their own operations at the organisational level.
- We contributed to the consideration of biodiversity and nature loss in the OECD Arrangement discussions.

INTENT IN 2026-2029:

- We are actively engaged in discussions aimed at creating a level playing field.
- We will take part in drafting any potential updates to the OECD Guidance Note on biodiversity.

Competence

Sustainability is one of our strategic competences.

COMPLETED ACTIONS/WHAT WE DO:

- FIBS membership enables us to provide biodiversity training for the whole Finnvera personnel.
- We organised an information event on biodiversity and biodiversity loss for the personnel of the Large Corporates unit and presented the results of the biodiversity footprint calculation.

INTENT IN 2026-2029:

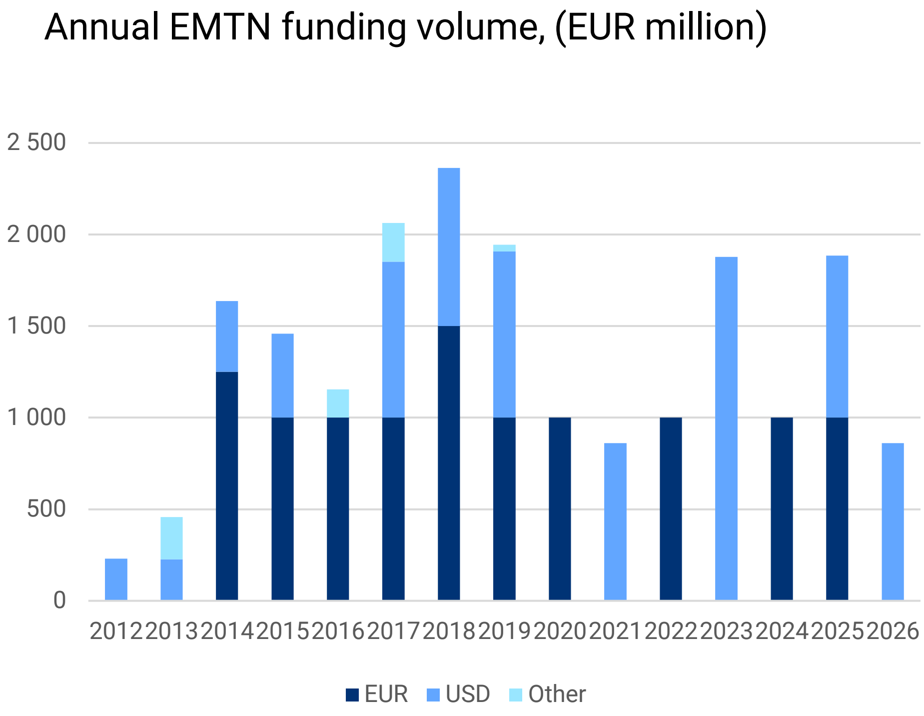
- We will provide continuous training and build up the personnel's competence on biodiversity issues.

Funding

FINNVERA

Long Term Funding

- Finnvera secures funding through a EUR 17 billion EMTN program
- The issues unconditionally and irrevocably guaranteed by the Republic of Finland.
- Planned long-term funding for 2026 is approximately EUR 1–2 billion.
  - USD 1 billion completed in May



FINNVERA

Long Term Funding

- Objective to maintain well defined secondary market curves in both EUR and USD.
- Investor demand and ALM policies also taken into account in selection of currency and maturity.
- LCR Level 1, CRR/BIS risk weight 0%, Solvency II 0%.
- EUR debt eligible for the Eurosystem's Public Sector Purchase Programme (PSPP).

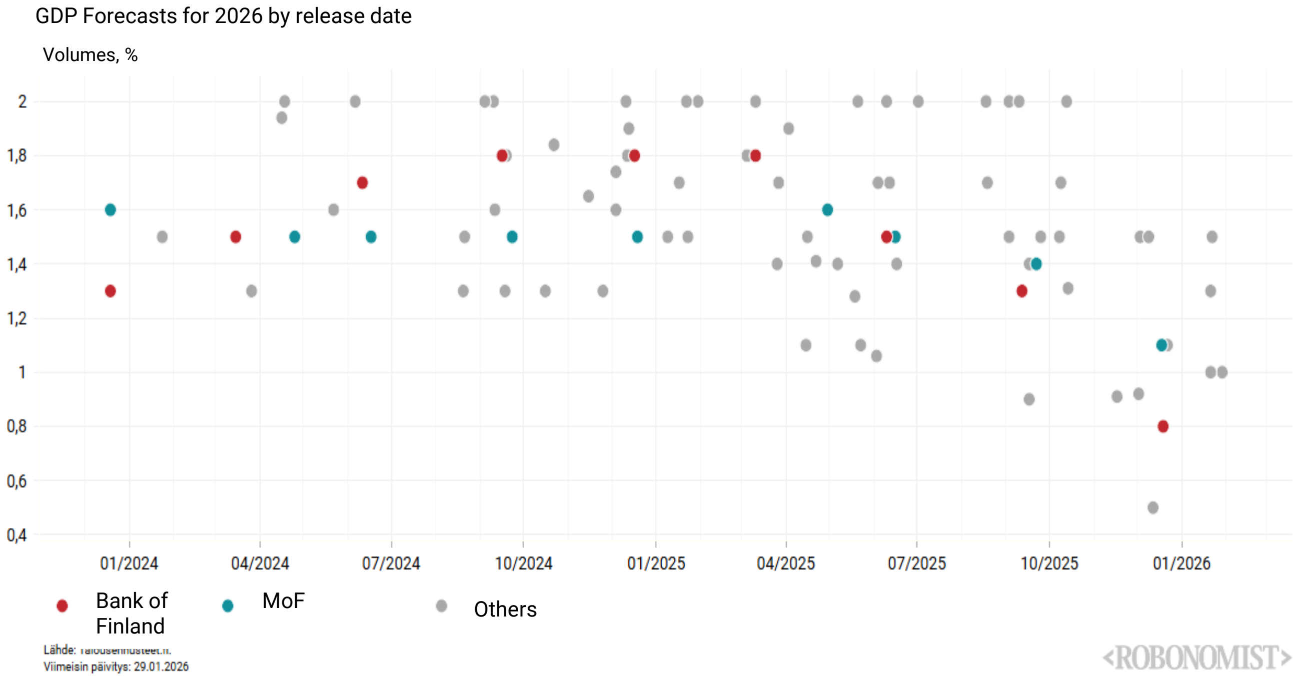
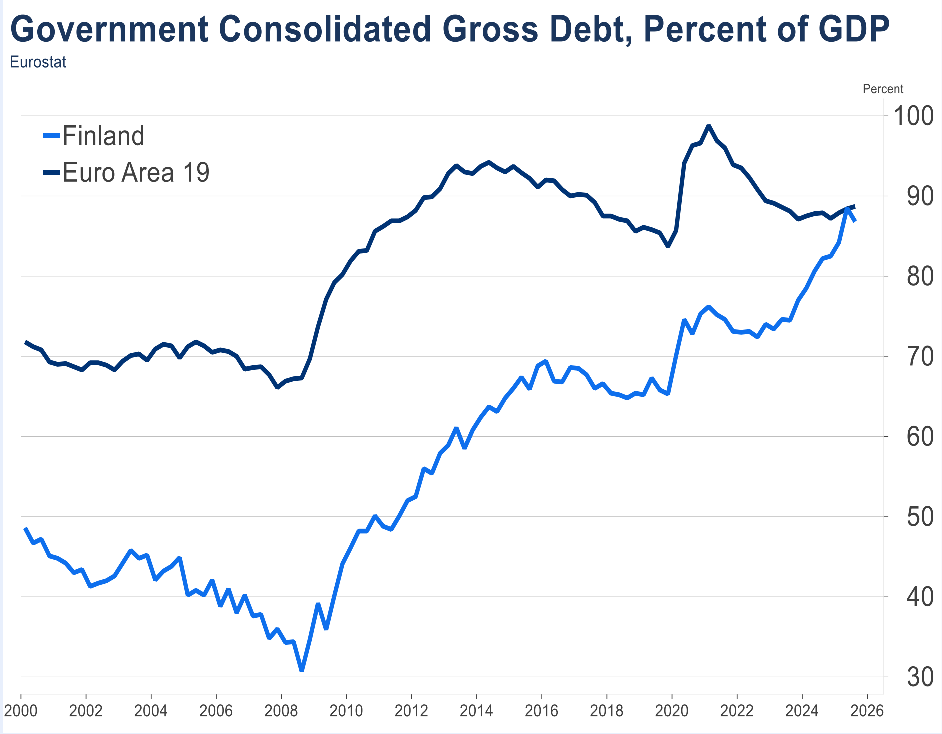
Growth Forecasts for Finland for 2026



FINNVERA

Economic Outlook of Finland

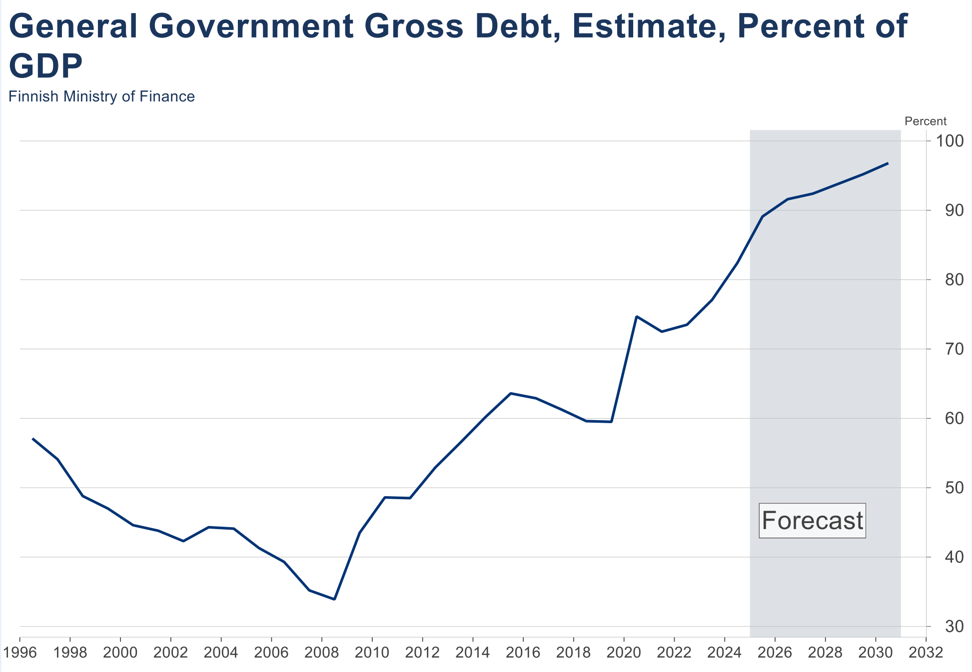
- **Economic growth slowed in 2023 and has been sluggish since**
- **Public debt is higher than in other Nordics, but close to Euro area average.**
- **The direct negative effect on Russian exports/imports has been mitigated.**
- **There is a slight effect in the US exports**
    - Potential effect will strengthen in 2026



FINNVERA

More on Public Finances

- **Government goal was to stabilize the general government debt by 2027**
  - Due to negative surprises, stabilization will probably not happen by 2027
- **Government is aiming for 10 bn. € fiscal consolidation**
  - In practice, it's something less, but still considerable
    - 5 bn. € according to MoF
  - Stabilization of public debt is high on policy agenda, but it's not politically easy



Finnish Exports and Economy

- **Total exports amount to roughly 40 % of GDP.**
- **Main export partners are Germany, Sweden and the US.**
- **Trade with Russia has declined for a long time and is currently negligible.**

Biggest import and export countries, 2024*

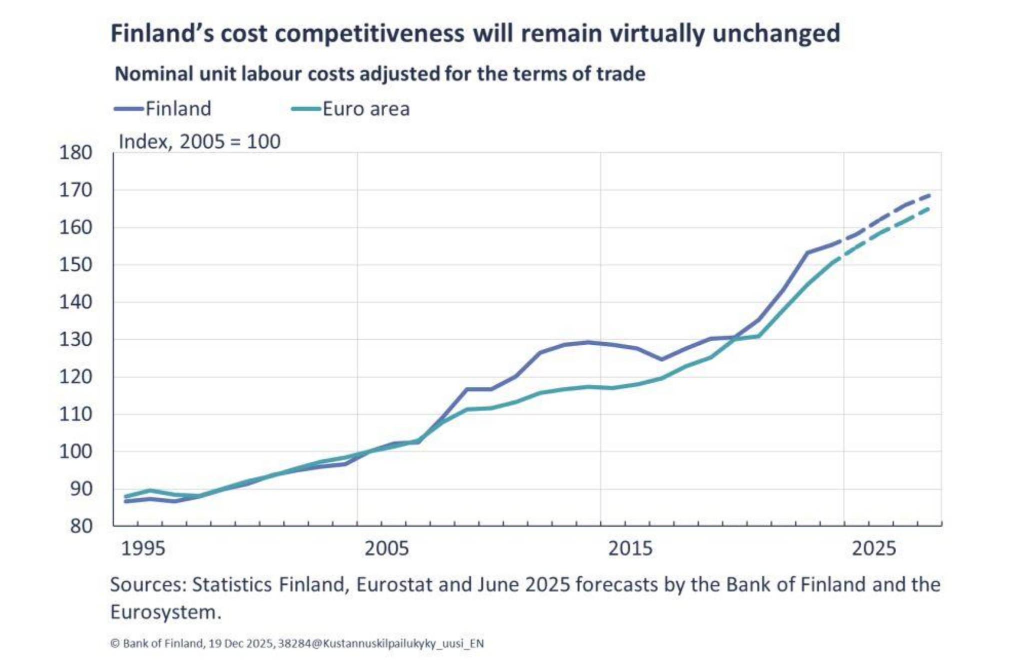
Cost Competitiveness Remains Stable



Source: Bank of Finland

- Cost competitiveness has been decent after 2016.
- Slowish (but steady) growth in labor costs has contributed positively to competitiveness

Energy Mix in Finland

- There is considerable amount of green energy, which is a competitive advantage for Finland.
- There is significant number of green investments in the pipeline, although current financial environment may postpone some projects.
