## Environmental and social impacts and risks In line with Finnvera's environmental and social risk management policy and international agreements, Finnvera is committed to identifying and addressing adverse impacts and risks that business operations that are supported by Finnvera, may cause to the environment, people and communities. Enhanced due diligence is applied when vulnerable groups or environmentally sensitive areas may be affected. To help us make this assessment as accurately and quickly as possible, please answer the following questions with as much detail and substantiated information as you can (generally, the more information you provide, the smoother the application process proceeds). Please indicate whether the business operation where the goods/services will be used is located in, is close to, or has a potential adverse impact on, any of the following type of areas (check appropriate boxes below): National park, nature reserve, other protected area, or location with a high concentration of biological diversity (e.g. IUCN Red List of Threatened Species, the World Database of Key Biodiversity Areas/on Protected Areas: www.ibat-alliance.org) Wetlands of national or international importance (e.g. lakes and rivers, swamps, tidal flats, mangroves and other coastal areas, see the Ramsar Convention: www.ramsar.org) Water stress area (e.g. www.waterscarcityatlas.org/water-stress) Area of archaeological or cultural significance (e.g. UN World Heritage List: whc.unesco.org) None of the above. The applicant has investigated the sensitivity of the business location, and none of the areas mentioned above were identified. The applicant has not investigated the sensitivity of the business operation, its location, or its supply chain. Please indicate whether the business operation where the goods/services will be used, or the value chains connected to them, involve, or will involve, any of the following individuals or groups of people who may be at risk for impacts (check appropriate boxes below): Communities of indigenous peoples, or area of importance for indigenous peoples or other vulnerable groups (e.g. Landmark -Global Platform of Indigenous and Community Lands: www.landmarkmap.org) Individuals or communities who are faced with the potential of resettlement or other significant impacts on their livelihoods, health and social structures. Operations and/or value chains with significant numbers of potentially vulnerable groups of workers, incl. migrant workers, temporary contract workers, seasonal workers, child workers, prison labour. Individuals who face risks because of discriminatory treatment based on their race, ethnicity, nationality, sex, gender identity, sexual orientation, age, or other characteristic irrelevant to job performance and/or prohibited by international human rights standards. Consumers, end-users, and other individuals whose health and/or rights to privacy and freedom of expression may be seriously at risk. Union representatives, human rights defenders, journalists and others who may face risks to their security, lives and livelihoods because of their work representing and protecting workers and communities. Other potentially severe social risk, namely: None of the above. The applicant has investigated potential impacts on people and communities, and none of the risks above (or other severe risks) were identified. The applicant has not investigated the potential impacts on people and communities connected to business operations or value chain. Has the Applicant (or another party like a consultant) assessed the potential environmental and social (incl. human rights and occupational health and safety) risks, and/or the quality of the management of environmental and social risks of the business operations where the goods/services will be used? Yes. How the investigation was conducted, which issues were considered, and what reference standards and frameworks were used? What E&S risks have been identified, if any, and what prevention and mitigation measures were/will be put in place? What is the quality of E&S risk management of the business operations where the goods will be used (and any parties in the value chain)? Please describe the main results and attach documents, if available.

No. Why was there no assessment (yet)? Are there plans to conduct due diligence in the (near) future?

If so, when are the outcomes available and can they be shared?
